Energy: Navigating Policy, Development, and the Future of Power

Seminar or Event

10.08.26

Event Sponsor: *Langan Engineering & Environmental Services*

Langan Environmental Summit | Northeast

Kenneth J. Sheehan, a partner in the firm's Energy & Renewable Resources practice, will be a panelist at the Langan Environmental Summit | Northeast, which will be held on October 8 & 9, 2026 in New Paltz, New York.

Hosted by Langan Engineering & Environmental Services, this two-day invitation-only event will bring together a select group of industry leaders, clients, and subject matter experts for a highly interactive forum focused on the evolving environmental, regulatory, and technical landscape. The programming will include a combination of expert-led discussions, panels, breakout sessions, and networking opportunities.

Ken will participate in a discussion on "Energy: Navigating Policy, Development, and the Future of Power" on Thursday, October 8 at 3:00pm, which will be moderated by former Commissioner of the New Jersey Department of Environmental Protection Bob Martin. Other sessions will focus on topics including PFAS, emerging contaminants such as microplastics, renewable energy, brownfields, and data centers.

Ken advises clients on regulatory, legislative and transactional issues associated with initiatives involving highly regulated utilities, including clean and solar energy, electric and gas, solid waste, water and wastewater, and cable and telecommunications. His broad-based experience in both the public and private sectors has provided him with a deep understanding of public utility law and administrative law, which throughout his career has informed his representation of clients ranging from public utilities to the developers of commercial and community solar projects and data centers.
